SUMMARY OF THE REASONS FOR DECISION:

The video recording *Color Climax Bestsellers Programme No. 231* is classified as:
Objectionable.

The video recording promotes and supports the use of urine in association with sexual conduct, and promotes and supports bestiality. Therefore the video recording falls under two provisions of s3(2) of the Films, Videos, and Publications Classification Act 1993 and is deemed to be objectionable.

The publication contains components that have previously been classified by various New Zealand classification authorities on several occasions, as parts of other video recordings.

The feature *Color Climax Bestsellers Programme No. 231* contains scenes entitled *Party Pissing*, *A Taste Of Piss* and *Wet Sex-tet* which contain depictions of the use of urine in association with sexual conduct in a manner designed to titillate and arouse the viewer. An additional component entitled *Color Climax Video Programme No. 281 Dog Fuckers* depicts bestiality.

A classification of "objectionable" places a limit on the right to the freedom of expression as set out in s14 of the New Zealand Bill of Rights Act 1990. However, in relation to this publication, the classification is considered to be a reasonable limit prescribed by law that can be demonstrably justified in a free and democratic society.
